AND GTR

BASS

● Small DMX Lights ●

● light pole with live vocal mic

light pole with no mic ●

We are designed to fit in around other backline if required and the screen changes size depending on the size of stage. We provide our own small lights, mics, projectors and monitors to in ears. We will provide you with 2 channels (L&R) with everything already mixed that can go straight to the PA. We have our own 5 metre snake or you can add two XLRs if that needs to be longer.

We will use your acoustic drum set up, mics, cables etc. We may ask for some drums in monitors depending on the size of stage.

Please contact info@deathingloria.com or Rin on 07754453389 if you have any queries
